PEER Bearing Company Conflict Minerals Policy

PEER is committed to upholding the highest standards of corporate responsibility. PEER shares the international community's concern that proceeds from the sale of certain minerals mined in the Democratic Republic of the Congo (DRC) or adjoining countries might be fueling human rights violations.

PEER will not knowingly source any product containing "Conflict Minerals" (Gold (Au), Tantalum (Ta), Tungsten (W) and Tin (Sn)) from the DRC or adjoining countries and has surveyed its suppliers to confirm that none of the products or materials supplied to PEER contain any Conflict Minerals.

As of the date of this Position Statement none of our products contain any Conflict Minerals and no Conflict Minerals are necessary to the functionality or production of any of our products.

Thank you and best regards,
Company: PEER Bearing
Date: 07.13.2015
